

PopStar family™

PopStar family™

Primary applications: Public lawns, parks and private gardens

Main features

- Excellent performance in a wide range of applications
- Easy tool-free hold & rotate arc adjustment (30°-360°)
- Colour-coded nozzles for easy identification and monitoring
- Range of nozzles for adaptation of uniform irrigation rates to different irrigation sectors
- Uniform irrigation: distribution uniformity above CU 88%
- Quick and simple maintenance
- Ribbed canister for anti-vandalism anchoring
- Ratchet mechanism for safe head rotation
- Unique nozzle design shape creates optimum close-to-sprinkler watering

PopStar Plus (green cover): Arc memory for one-time arc adjustment
Designed especially for public areas

PopStar family™

PopStar family™

Technical data

Pop-up height: 10 cm

Pop-Star irrigation arc: 30° - 360°

Pop-Star Plus irrigation arc: 40° - 360°

Jet height: 2.3 - 3.0 m (according to nozzle and pressure)

Recommended working pressure: 2.5 - 4.5 bar

Spacing: up to 12 m

Integral anti-drainage device: 1.2 m

1/2" water inlet

Performance table

Nozzle	P bar	Q m ³ /h	D (m)	
			max.	min.
2	2.0	0.17	18.4	16.0
	3.0	0.20	18.4	16.0
	4.0	0.24	18.4	16.0
